

ReGenAmenity
the way nature intended

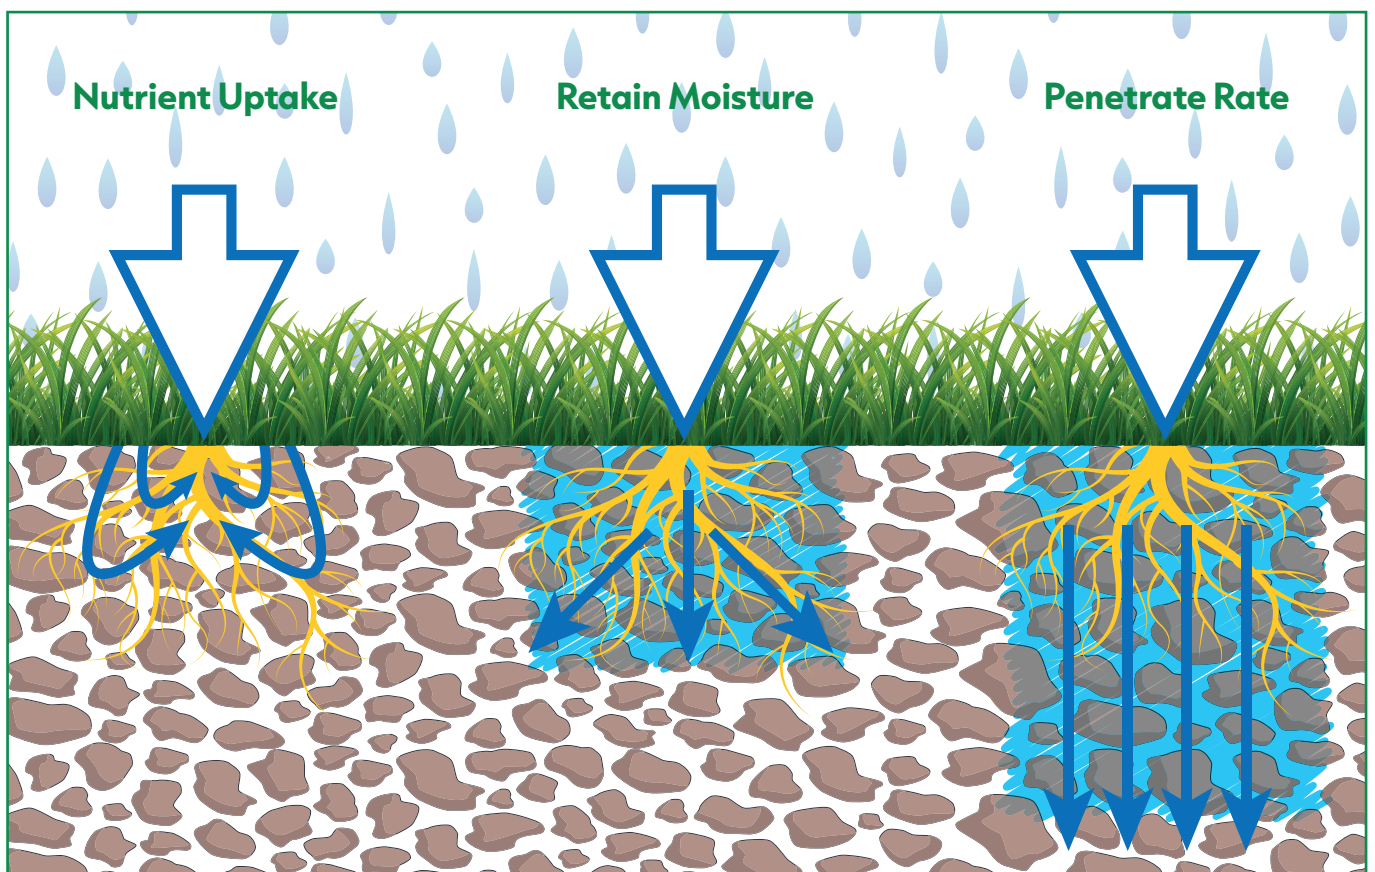

ReGen
quattro

**ReGen Quattro
is a unique,
patented liquid
wetting agent,
which is 100%
biodegradable.**

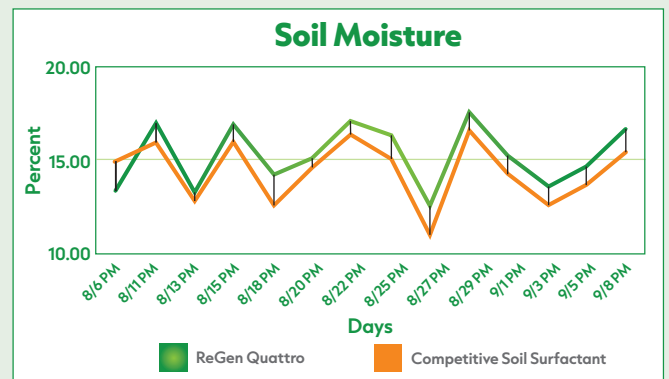

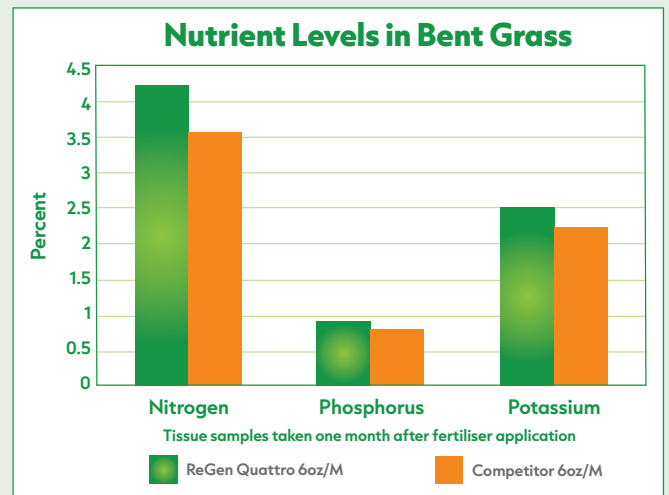

ReGen Quattro is aimed to give the end user complete control and flexibility due to its multiple modes of action thus changing the way you view and use wetting agents.

3 Modes of Action, 1 Flexible Product

Half of a Bent grass Golf Green was sprayed with **ReGen Quattro** vs Competitor Product. Based on moisture readings, Quattro averaged 1-1.5 % more moisture in the soil as compared to the market leading competitive product.

ReGen Quattro is also proven to increase nutrient uptake thus maximising the efficiency of the products you apply to your surfaces.

ReGen Quattro has the ability to Spread, Penetrate, Flush, and increase Nutrient Uptake all based on the rate it is applied.

***Flexibility at your fingertips
whatever the forecast!***
