

The Key to Unlocking Soil & Plant Health

ReGen quattro

- Patented formulation improves the uptake and recovery of nutrients from the soil
- This is because of the Oleic acid capped block co-polymer patented formulation drives nutrients into the plant
- For the turf manager who wants ultimate control

- Multiple modes of action puts the end user back in control of where they want the moisture in their root zone
- 100% biodegradable
- Flexibility at your finger types whatever the forecast.

ReGen Green+

- Supplies the plant with complex sugars
- Contains a natural source of Potassium
- Rich in mannitol to reduce, drought, heat & cold stress

ReGen Double-Shot

- Double-Shot is a unique patented surfactant technology infused with a highly concentrated cold extraction kelp extract
- The Osmoregulation and Antioxidant properties in Double-Shot help you to produce healthy playing surfaces whatever the conditions

ReGen Replenish

- Packed with amino acids and trace elements to boost plant function
- Certified organic soil conditioner
- 100% natural ingredients with no harmful chemicals

- Proven to boost microbial biomass within a sand based root zone
- Supports the natural function of the root zone in and around the plant
- Quickly restores depleted root zones.

- Packed with goodness to support root health and development
- Naturally rich in chelating and stabilising alginates
- 100% ECOCERT CERTIFIED.

- A surfactant that improves infiltration, retention and uniformity, whilst being infused with a rich cold pressed seaweed
- A source of carbon for the root zone.
